

TO: Chris Cheng
Planning and Development Services Unit

FROM: Christina Gomes, Solid Waste and Recycling Coordinator

DATE: January 9, 2019

SUBJECT: Site Plan: 327 E. Hoover Site Plan
Location: #27 E. Hoover
Plans Dated: 12-20-18
Project Number: SP18-053

We have reviewed the above request and have provided the following comments:

- A. The raised planter bed extends beyond the footprint of the building, which would cause issues with the solid waste vehicles reversing from the facility. Revise layout to eliminate this conflict.
- B. Please see the Traffic Engineer's comments regarding the 'Railroad Quiet Zone', which may affect future Solid Waste Services concerning the entering and exiting of the development.
