Kathleen,

I want to confirm we have the requested clearances in front of the FDC. It is directly adjacent to the paved driveway. See attached site plan where I added a clearance box and dimensions. This image is from the attached PDF.

Does this satisfy your comment?

Jeff,

That view shows where the FDC is, however, not what is in between the FDC and the road. Landscaping, transformers, etc. and whatever. I attached a snip of the site plan to see what I am looking at.

Hi Kathleen.

Your note in Trakit said:

**“Verify that there is a clear access to the FDC with a 3' space in front of and to the sides of the connections”.**

Are you OK with what the petitioner is showing (below)?

Thanks.

Thank you, I see you updated your review to approved. ☺

Are we also waiting on traffic re-review? Or just Anne at engineering.

Thanks.

Yes, please upload the complete plan set once etrakit is fixed (not exactly sure when that will be).  
Let me know once it's been uploaded so I can sign off on it.

Still waiting for comments from Anne.

Please note that your addressing plan needs to be updated. Can you get this to Scott Harrod:

I can. And add the 2 additional spaces to the count.

Anything other comments. Should I go ahead and make this updates and post it.

Etrakits down, any updates on the other reviews?

Thanks for the quick response.

Thanks, Jeremiah.

Can you shift all of the hoop style racks 1 foot to the north. Since you have 3' on the north end of the hoop style racks, this should provide 2 feet for the rack on the north side as well as 2' for the rack on the south side.

Does that make sense?

Jeff
