**RE: 950 GREENE ST (#SP19-050) | SITE PLAN ADMENDMENT SUMMARY**

Dear Jeff,

The following are a list of updates to the project:

1. Revision to Landscape Plan (Sheets LS01 & LS02) to mitigate the removal of 2 landmark trees #352 & #382.
  - a. The (2) landmark trees were deemed unsafe and not survivable as a result of proximity to construction activity. Forestry requested their immediate removal.
  - b. Revised planting plan to meet the city's requirement of having at least 50% of the mitigated trees will be located on site. This included adding additional trees, respacing of parkway trees and including additional plantings.
2. Updated corresponding sheets: Site Plan SP03, Civil Sheets C03 & C04 and Architectural sheet A02.

Sincerely,

JEREMIAH DIAMOND  
ASSOCIATE
